PROFILE

I am Pramod Lakshan, a third-year undergraduate student at the Faculty of Computing, Sabaragamuwa University of Sri Lanka, reading for a BSc (Hons) in Computing and Information Systems. I have hands-on experience building mobile and web applications, working across UI/UX design, backend APIs, and databases. I enjoy applying technology to solve real-world problems and am looking for an opportunity to gain practical industry experience while contributing to new and creative projects.

EDUCATION

BSc (Hons) in Computing and Information Systems

Sabaragamuwa University of Sri Lanka
2024 – Present

H / Magama Maha Vidyalaya

G.C.E. Advanced Level – Physical Science Stream – B, B, C
2022 / 2023

PROJECTS

AuraCare – AI-Powered Mobile Healthcare Application

Flutter / Dart / Firebase

A capstone team project delivering an AI-powered mobile healthcare app that supports users with healthcare assistance, medication reminders, appointment scheduling, and an emergency SOS feature. Contributed mainly to UI/UX development, implementing the Profile and Edit Profile screens.

GitHub: github.com/pramodlakshan125/AuraCare-App

RentRide – Location-Based Vehicle Rental Marketplace

React Native / TypeScript / Node.js / Express.js / PostgreSQL (PostGIS) / Google Maps API / Firebase Cloud Messaging

A location-based marketplace connecting vehicle owners with customers. Owners can list vehicles with prices, availability, images, and locations, while customers can discover nearby vehicles using their current location, filter by price and requirements, view vehicle details, and make bookings. The app also covers owner verification, booking management, payments, push notifications, and ratings. Built with a React Native and TypeScript frontend, a Node.js/Express.js backend, PostgreSQL with PostGIS for geospatial data, Google Maps for location services, and Firebase Cloud Messaging for notifications.

Traveler – Sri Lanka Travel Guide Website

HTML5 / CSS3 / JavaScript

A responsive travel website that helps visitors discover popular destinations across Sri Lanka, including Adam's Peak, Ella, Galle, Horton Plains, Kitulgala, Knuckles, Madolsima, Mirissa, and the Temple of the Tooth. Includes dedicated destination pages, a login page, and a contact page, built entirely with HTML, CSS, and vanilla JavaScript.

SKILLS (SOFT)

- Teamwork & Collaboration
- Time Management & Organization
- Creativity & Innovation
- Communication Skills (written and verbal)
- Adaptability and Quick Learning
- Problem-solving
- Leadership and Responsibility

SKILLS (TECHNICAL)

Programming Languages – Java, JavaScript, TypeScript, Dart, PHP

Web Development – HTML5, CSS3, JavaScript, Bootstrap, Laravel, Node.js, Express.js, RESTful API Integration

Mobile Development – Flutter, Dart, React Native, Firebase

Databases – MySQL, PostgreSQL (PostGIS), Firebase

Frameworks & Tools – Flutter, React Native, Laravel, Node.js/Express.js, Firebase, Google Maps API, Git & GitHub, VS Code, XAMPP, Postman

Software Engineering Skills – Object-Oriented Programming (OOP), Agile, UML Diagramming, Software Testing & Debugging

VOLUNTEERING

IEEE Student Branch – Sabaragamuwa University of Sri Lanka

Volunteer participation in university technical, organizational, and student activities, supporting teamwork and event coordination.

University Event Volunteering

Participated in university events and activities, contributing to team-based organization, coordination, and technical support.

EXTRA CURRICULAR ACTIVITIES

Web Development Beginner Certificate

Completed beginner-level learning related to web development.

Flutter / Mobile Application Development

Hands-on learning and project development using Flutter and Dart.

Git & GitHub

Practical experience with version control and collaborative software development workflows.
